

SECURE AND EFFICIENT PAYMENTS

BOOST INTERCEPT CAN HELP MAKE YOUR B2B PAYMENTS PAINLESS

ARE LEGACY PAYMENTS SLOWING YOUR GROWTH?

Use of paper checks can create long transaction times, lead to manual errors and make it challenging to effectively track payment data. Traditional B2B transactions also tend to involve multiple intermediaries, which can lead to friction during the invoice-to-cash process.¹

40% of B2B payments are still made with **paper checks**

81% of companies make non-B2B payments with **paper checks**²

PREVENTING FRICTION WITH DIGITAL PAYMENTS

Digital payment methods, such as virtual cards, can help make payments fast and easy. They can also be a valuable tool to help protect your company and customers from fraud.

52%

of U.S. commercial spend will be on **virtual cards by 2025**

56%

of B2B buyers **demand several payment options**

92%

of large **firms are digitizing** their AR operations³

CHECK FRAUD CHECK-IN

101

Check fraud is becoming increasingly sophisticated – and increasingly common⁴

63% of respondents reported fraud activity **most commonly occurring via checks**⁵

MEMO: **61%** of CFOs say **payment digitization** improved their data security⁶

KEEP THINGS STRAIGHTFORWARD WITH STRAIGHT-THROUGH PROCESSING

Straight-Through Processing (STP) can help simplify B2B payments by automating your processes from beginning to end – without the need for manual intervention.

46% of surveyed organizations say their **primary reason for switching to electronic payments** is to facilitate straight-through processing⁷

47% of organizations **use some version of STP to make payments**⁸

INTRODUCING ...

Boost Intercept's patented straight-through-processing (STP) technology **automates manual processes, to help remove the risk of human error.** This not only saves time and resources, but also gives you the confidence of knowing your data insights are reliable.⁹

- ✓ **Hands-Off Payments:** Our patented STP solution converts commercial card payments into a completely passive experience
- ✓ **Smoother Transactions:** Enjoy optimized pricing, automation, reporting and security when accepting commercial cards
- ✓ **Automated Data Insights:** Eliminate time-consuming, labor-intensive and error-prone data entry
- ✓ **Friction-Free Reconciliation:** Simplify your payment reconciliation process through automated reporting
- ✓ **Seamless Integration:** Quickly and easily integrate directly into your existing systems, no new equipment or training required
- ✓ **Customer Satisfaction:** Keep your customers happy by accepting the payment methods they want to use¹⁰
